EXPERIENCE

Game Design Initiative at Cornell
Cornell University, Ithaca, NY – *Head Teaching Assistant*

AUGUST 2025 – MAY 2026

Lead discussion sections, taught course content, and advised teams for an advanced game design course.

Open Source Zulip Contribution
Cornell University, Ithaca, NY – *Contributor*

JANUARY 2026 – MAY 2026

Built PostgreSQL full-text search for Zulip via SQLAlchemy Core, using EXISTS subqueries and status filtering.

Laboratory of Particle Physics and Cosmology
Harvard University, Cambridge, MA – *Research Intern*

JUNE 2022 – AUGUST 2022

Developed event reconstructions for neutrino telescopes. Named author on paper and presented findings at conference.

Physics and Math Tutoring
Remote – *Tutor*

SEPTEMBER 2022 – ONGOING

Private-tutored high-school and college students in Physics and Calculus.

AI Behavior Tree
Cornell University, Ithaca, NY – *Developer*

SEPTEMBER 2024 – ONGOING

Implementing an AI behavior tree package for the CUGL game engine.

SKILLS

- Python
- Java
- TypeScript
- C++
- SQL
- R
- Git / Unix

LANGUAGES

- Proficient in Spanish
- Proficient in Korean

EDUCATION

Cornell University
Ithaca, NY – *M. Eng in Computer Science*

MAY 2026

Coursework to date includes:

- Databases, Statistics & Probability
- Computer Graphics, Machine Learning
- Software Engineering, Cloud Computing
- Python, Java, C++, Functional Programming (OCaml)
- Multivariable Calculus, Differential Equations, Linear Algebra
- Mechanics & Special Relativity, Electricity & Magnetism, Waves & Thermodynamics, Quantum Mechanics

Cornell University
Ithaca, NY – *B.S in Physics*

MAY 2025

PRESENTATIONS & PUBLICATIONS

International Cosmic Ray Conference
Nagoya, Japan

AUGUST 2023

Gave a poster presentation on the neutrino simulation software I helped develop.

Prometheus: An Open-Source Neutrino Telescope Simulation, Jeffrey Lazar, Stephan Meighen-Berger, Christian Haack, David Kim, Santiago Giner, Carlos A. Argüelles (2023).
